

Industry Partners Council Breakfast

Each month AAGIE invites a different Property Management Company to inform its IPC Members of the Company's background, growth, goals and how to become vendors with that particular Property Management Company. The Perfect Opportunity to Network and expand your business!

Featured Speaker

BRE Properties

While much has changed since BRE was founded in 1970, what hasn't changed is the ability to grow long-term value—by providing residents with exceptional places to live.

BRE has a longstanding track record of successfully adapting to the marketplace, turning challenges into opportunities, and thriving at times when many did not.

As a real estate investment trust (REIT), BRE has unique advantages in developing, acquiring and managing high-quality properties in the best places in the Western United States. BRE is structured to build long-term value—investing in the locations, conveniences, amenities and comforts people look for in a home. BRE has built a culture of innovation and initiative based on the recognition that our people are as unique and valuable to BRE's success as the properties.
