

July Lunch Club

Water Conservation

Bill Mosley,
Director of Operations-
California Utility Billing Services (CUBS)
&
Lucille Aresco-Crowley,
Beach Front Property Management

Water represents a significant growing expense in multifamily operations. With California facing a water crisis, it's important to know how widespread the problem is and how long it might last.

With over 17 years of billing and customer operations experience in the utility and telecommunications industries, Bill Mosley and Lucille Aresco-Crowley of Beach Front Property Management, will share information about the water shortage, what is causing it and how to build a strategic plan that will not only help your bottom line but that will also aid our global community.

- Topics will include:
- Water Awareness and Advocacy
 - State Legislation
 - Inside and outside the typical multifamily water usage
 - When to replace plumbing/irrigation
